FOR A PLEASURE RESORT

A Western Brewing Company Negotiating for a Site.

Land Below Giesboro Point Said to Be Under Consideration—A Scheme to Acquire a Baltimore and Ohio Freight Branch and Change It to an Overhead Electric Railway.

Ever since last spring gossip has been current in real estate circles about a large deal by which a railroad across the Eastern Branch and a large tract of land in that vicinity was to be transferred to a prominent Milwaukee brewing company.

The railroad mentioned in the single-track branch of the Baltimore and Ohio Company which conveys freight along the banks of the river opposite the navy yard to a point below Bladen's wharf, where the cars are ferried over to the Virginia side on barges. The land said to be desired by the brewing company is at the point of the river some distance below Giesboro Point and just across the District line, embracing about 300 acres. The object in securing this land is to establish a large summer garden in connection with a stage-house for the company's manufactures, which are extensively handled in Washington, Alexandria, and neighboring communities.

It is proposed to convert the steam railroad from an overhead electric system, and run cars from the Annapolis side of the Navy Yard Bridge to a point which will be the terminus. In this connection it was proposed to acquire also the power-house of the Capital Railway, already alongside the track of the Baltimore and Ohio, soon to be discarded on the completion of the electric system connecting the old Annapolis Railroad with the Capital Railway.

This power-house in connection with a stage-house for the company's manufactures, which are extensively handled in Washington, Alexandria, and neighboring communities. It is proposed to convert the steam railroad from an overhead electric system, and run cars from the Annapolis side of the Navy Yard Bridge to a point which will be the terminus. In this connection it was proposed to acquire also the power-house of the Capital Railway, already alongside the track of the Baltimore and Ohio, soon to be discarded on the completion of the electric system connecting the old Annapolis Railroad with the Capital Railway.

Agents of the brewing company in question, were here for some time last spring prospecting for a suitable position for such a plant as described. Wilson Park, formerly known as Pencote Woods, was first favored, but on account of the proximity of the Government Insane Asylum, objections were made and negotiations ceased, although this tract was considered the most suitable on that side of the District overlooking the river, the main objection being the excise laws of the District. It was here proposed to erect a large hotel situated on the brow of the hill, affording a lofty birdseye view of the city.

An organized effort will be made to secure this sorely-needed improvement at the next session of Congress in any event. Representatives of the land upon which the brewing company still has its eye last spring are still in communication with it, and they are confident that by next fall some of the company's wealth will have found good investment in the very realty. The improvements thus contemplated, it is said, would give a populous section of the District across the river speedy communication with the city's main arteries, and altogether greatly stimulate the advancement of the southeast section.

KNIGHTS OF COLUMBUS' TRIP.

A National Reunion to Be Held at Atlantic City.

The local councils of the Knights of Columbus are arranging a joint excursion to Atlantic City, N. J., which will be given on August 3, the occasion being the reception and reunion of the national organization of the Knights of that place. The Atlantic City Council of Knights arranged the affair to commemorate the day upon which Columbus set sail from Palos, Spain, on his first great voyage of discovery. Men of national prominence in the order will deliver addresses. The afternoon will be devoted to aquatic and other amusements and at 8:30 p. m. a reception will be given in the mammoth marine pavilion of Young's Ocean Pier.

The District of Columbia committee has arranged with the Atlantic City Council to secure hotel accommodations for all those applying. A special Knights of Columbus train, via the Delaware Bridge route direct, will leave the Baltimore and Potomac station, Sixth and B Streets, northwest, Wednesday evening, August 2, at 6 o'clock and will arrive in Atlantic City at 11 o'clock.
